***Election/Restrictions***

Claims 10-16 and 20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 5 filed October 20, 2003.

***Information Disclosure Statement***

The information disclosure statement filed October 20, 2003 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because there was no translation of at least the relevant portions of French patent 2,730,157. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

***Priority***

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Italy on May 13, 1999. It is noted, however, that applicant has not filed a copy of the certified copy of the BO99A000253 application as required by 35 U.S.C. 119(b).

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3, 5, 7-10, and 17-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 3, 8, and 17-19, on line 1 of claim 3, "it" is an indefinite pronoun in that it is not clear what it refers. In addition, claim 3 appears to repeat limitations already set forth in claim 1 such that the claim language is unclear.

In claim 3, line 10, it is unclear what the hyphen "-" means.

With regard to claims 5, 7, 9, 10, and 18, it is unclear what the term "anticlastic" means since clastic means having parts.

With regard to claim 7, lines 9-10, the scope of the language "i.e. partly anticlastic" is not understood because it follows a broader limitation but is not a clear alternative thereto; see MPEP 2173.05(h).

With regard to claims 7 and 9, on line 13 of claim 7 and on lines 10-12 of claim 9, "one of the two surface, the third (7)" appears to have two different scopes; similarly, "the other bearing surface, the fourth" is confusing also.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the

applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, and 4-6 are rejected under 35 U.S.C. 102(e) as being anticipated by Goodfellow et al (US 5,871,542). Goodfellow anticipates and reads on the claim language where the first component as claimed is the femoral component (30) of Goodfellow, the second component as claimed is the tibial component (10) of Goodfellow, and the third component as claimed is the meniscal component (20); see the figure as well as column 3, line 56 to column 4, line 27.

With regard to claim 6, Applicants are directed to see column 5, lines 34-39.

#### ***Allowable Subject Matter***

Claims 7-9 and 17-19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

#### ***Conclusion***

Applicant should specifically point out the support for any amendments made to the disclosure, including the claims (MPEP 714.02 and 2163.06). Due to the procedure outlined in MPEP 2163.06 for interpreting claims, it is noted that other art may be applicable under 35 USC 102 or 35 USC 103(a) once the aforementioned issue(s) is/are addressed.

Applicant is respectfully requested to provide a list of all copending applications that set forth similar subject matter to the present claims. A copy of such copending claims is respectfully requested in response to this Office action.
